

Terry Matlock School of Performing Arts
OCTOBER Studio NEWSLETTER

Our dance and gymnastics season is off to a great start! During the first 6 weeks of classes, teachers are evaluating students for class placement. If your student's class is not a good fit, your teacher will recommend an alternate class time to you. **Attendance** is important in your child's training. New material is added each week and often students who miss become frustrated. Please see your teacher about a make-up class that is on the same lesson plan. If you are paying for your tuition by the month you must be signed up for **Tuition Express**. Payments will be electronically deducted from your checking account or charged to a credit/debit card on the first of each month. *If there are any additional charges, costumes, competition fees, etc. you will receive a statement by the 15th of the previous month.* Forms are on the desk. Once you have filled it out, please put the form in lock box by the front door.

The week of October 26 -31, we will be having a Halloween Party at the end of class. Students are welcome to bring treats to pass. Dancers may wear costumes to class for an interpretive dance class.

OCTOBER IS SPREAD THE WORD MONTH

Tell your friends about your Dance School and "Bring a Friend to Class". If your friend enjoys the class and registers, you will receive a credit on your account for their first month's tuition. The student, who has the most friends enroll, will receive a Toe to Toe Gift Certificate.

Many of our dancers are attending the **Tremaine Dance Convention in Detroit** in November. If you have a dancer, age 6, or older who is interested in going, more information is available from their teacher. It is a great opportunity to take class from the best teachers in the country. All levels are welcome and our students come away energized with the love of dance. Tuition is \$235 for dancers and \$50 for observers.

If you have any questions or concerns, please give me a call at (810) 232-6800.

Dancingly yours,
Terry Matlock
